SUPPORT STUDENT RESEARCH

GOT KERNZA? LET'S TALK!

Participate in a research study to compare the energy return on investment for annual and Perennial grains

**WE WANT TO PAY YOU FOR YOUR TIME!
SURVEY OPEN THROUGH FEB 2022**

We are looking for growers who have fields of both Kernza and annual grains to provide information about management and energy-use to assess the potential for Kernza to reduce the energetic cost of grain production.

Colorado State University

PARTICIPATE TODAY

COMPLETE OUR SURVEY AT:
TINYURL.COM/GRAINEROI

Participation is voluntary and individual data will remain anonymous.

We will compensate up to \$200 for your participation.

Research objective: Understand the energy cost required to grow perennial Kernza relative to annual agriculture today and in the next 30 years.

Type of information that will inform this study:

- Size of fields
- Yield and amendment history
- Number of tractor passes per crop
- Machinery type & fuel consumption
- Human labor involved in crop production
- Other energy expenditures on farm
